A WORK SPACE FOR CREATIVE PEOPLE TO MEET, CONNECT AND COLLABORATE

The background of the page is a blurred office scene, showing what appears to be a desk with a computer monitor and some papers. The image is split diagonally from the bottom left to the top right. The upper-left portion is a darker, muted brownish-grey, while the lower-right portion is a lighter, off-white color. The text is overlaid on these sections.

@workspace

about us

Our business center is a professionally managed commercial facility that offers an end-to-end business infrastructure for short, medium, and long term durations. You can choose from a wide range of flexible options based on your specific space and infrastructural requirements.

We offer everything required including conference and meeting rooms, printing services, contemporary furniture and decor, high-speed internet connectivity and many more. We also provide trained staff to answer phone calls and meet your administrative needs.

Our business lounges are ideal for people that don't require a fixed workspace, or due to work travel all the time. They include comfortable sitting, a coffee bar, printing services and trained staff for administrative needs.

FLEXIBLE SPACES

Move-in ready offices for hybrid or remote employees, teams or as new headquarters.

PRIME LOCATION

Centrally located near Nicosia's financial and business district, other businesses, transportation, shops and restaurants.

COST EFFICIENCY

By placing employees in a private office in a collaborative workspace, you're only paying for the space you are using. Best of all, you can easily add space as the team grows.

WORKSPACE WITH IMMEDIATE ACCESS

Book by the hour or day, get monthly access or settle into an office for as long as you want.

CO-WORKING COMMUNITY

Community members not only work under the same roof, but they also share experiences and responsibilities which keeps the community alive and develops a sense of belonging and commitment in each person.

NETWORKING

Opportunity to network with people from other companies, including entrepreneurs, freelancers, and remote workers. This flow of knowledge and creativity can be a major benefit. Many global enterprises place teams in collaborative spaces so they can absorb new, innovative ideas from others who are not usually in their network.

ALL-INCLUSIVE AMENITIES

With a collaborative workspace you do not have to worry about security, cleaning, utilities & maintenance.

HEALTH AND SAFETY

The health and safety of each individual in our spaces is our priority so you can continue working with peace of mind.
